

Commenting guidelines

ID names and Class names should be in Camel case
Prefer comments on their own line. Avoid end-of-line comments.
Use comments to divide main sections

Selectors

Column (seperate selectors by comma then new line)
CSS Selectors should be in the same order as HTML elements
Using SCSS style with the brackets (nested SCSS style)
Do not nest more than 3 levels deep
Use HEX color codes
No ID's for styling

Variable Names		
\$accent	#f38d8d	orange
